HOW TO MAKE A

Bostik Gecko

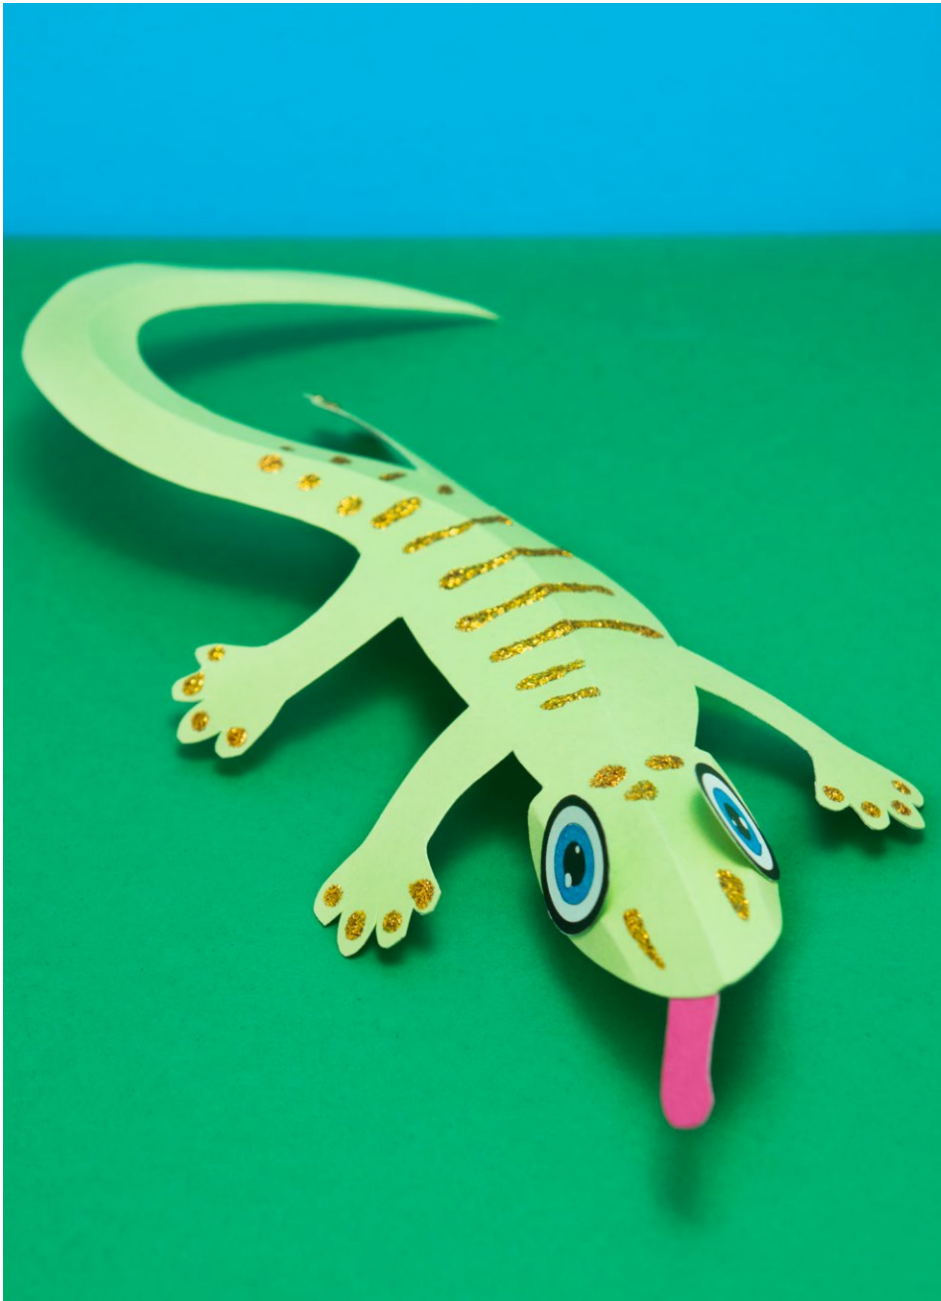

**PARENTAL SUPERVISION
/ASSISTANCE REQUIRED**

YOU'LL NEED:

- Printed Template
- A4 Coloured card
Green card x1 (gecko)
Pink x1 (tongue)
- Coloured Markers
- Scissors
- Craft Knife
- Cutting Mat

HINT: No cutting mat? Why not use a chopping board.

- Bostik Glitter Glue
- Bostik Blu Stik

STEP 1

Print the template and find a clean surface to work on. Make sure you have everything you need.

STEP 2

Loosely cut out the Gecko and eyes from the template. Use the Blu Stik to glue to the green card. Cut them out. Repeat for the tongue on the pink card.

Ask a parent to score the dotted lines on the template with the back (blunt side) of the craft knife. Make sure they are careful not to cut themselves!

STEP 3

Gently and slowly fold the scored lines. Ask a parent for help if you're having trouble.

Colour in the eyes with the coloured markers.

Use the Blu Stik to glue the eyes in place on the each side of the gecko's head.

Glue the tongue to the underside of the Gecko's face at a slight angle.
